

# Bino

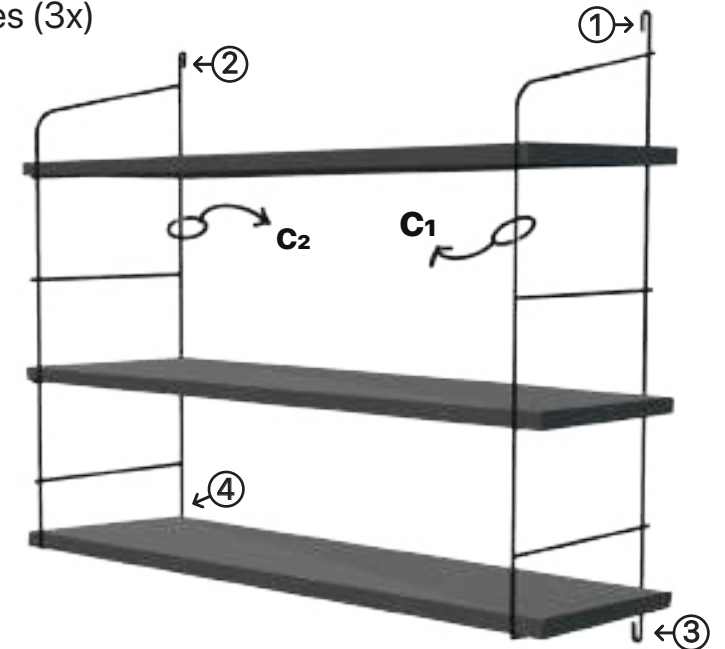

## Three-tier Wall Shelf

Box Contents:

- a) Screws and Dowels (4x)
- b) Wood Shelves (3x)

c) Metal Frames (2x)

- 1) Make sure that the shelves are positioning during installation as shown in the figures.
- 2) Determine the spacing of the metal frames on the wall according to the slots that are under the wooden shelves.
- 3) Determine the place where you will mount your shelf, drill the wall and insert the dowel in the hole and mount the installed shelf on the wall with a screw from the places indicated by points of 1, 2, 3 and 4.
- 4) After screw the metal frames side by side to the wall, place the shelves on the metal frames by positioning the slots.
- 5) Your product is ready to use.
